EVALUATION RESEARCH

ÖZGE AYDIN

ACADEMIC WRITING SKILLS COURSE EVALUATION

The study aimed to investigate and evaluate Academic Writing Skills Course offered in Spring 2017. Within the scope of this evaluation research, data were gathered from various sources via different data collection instruments to display a full picture of the current course. The participants were primarily 194 students taking the target course, 11 Academic Writing Course instructors offering the course to different departments, and two departmental elective course instructors. Academic Writing Skills Course Evaluation Questionnaire was administered to the students while individual interviews were conducted with the instructors. Moreover, a focus group interview including six students from different departments was carried out by the researcher besides the observation of two instructors' classes for two weeks. Course documents and meeting notes were also analyzed. In the light of the findings, some implications for practice were put forward.
